

NEW RENEGADE MODELS

RENEGADE DESIGN TEAM LISTENS TO THE VOICE OF THE CUSTOMER AND DELIVERS NEW PARTS WASHER MODELS

At Renegade Parts Washers and Detergents, our mission is to create value for our customers by listening to them when they require a solution to their unique parts washing challenges. Gratefully, we are excited to have a positive impact on their operational goals. In the process, the Renegade product line is growing. We are excited to share our recent Renegade Parts Washer Models!

NEW RENEGADE TLT DUAL 1615 TUMBLER AUTOMATIC TOP LOAD PARTS WASHER

The new Renegade Model TLT Dual 1615 Tumbler Automatic Top Load Parts Washer is the aqueous cleaning and degreasing equipment solution for batches of small machined parts, fasteners, components, bolts, and nuts for screw machine, CNC industry and more. Dual gear-driven rotating cylinder baskets and spray nozzles clean parts of dirt, grease or lubricants in a high temperature and high-pressure environment.

NEW RENEGADE TMB 2614 AUTOMATIC TOP LOAD PARTS WASHER WITH TURNTABLE

The new Renegade Model TMB 2614 Automatic Top Load Parts Washer With Turntable provides high performance in a compact package. The Renegade Engineering Team designed for unique functionality by placing a turntable system in a top load machine. The heavy-duty gear-driven turntable with a 500 lb. load capacity and 10 strategically-placed spray nozzles clean parts of grease, oil or lubricants in a high temperature and high-pressure environment.

NEW RENEGADE TMB 5500 AUTOMATIC TOP LOAD PARTS WASHER

The new Renegade Model TMB 5500 Automatic Top Load Parts Washer was designed specifically for a prominent bicycle manufacturer's dealer service department, and is also a great fit for, marine, power sports and small engine repair service departments. The new system cleans without solvents to lower environmental impact, increase automation, and reduce labor costs. The wash zone features a spray manifold to deliver high pressure force and high temperature cleaning performance consistent with leisure product manufacturers' parts quality compliance, warranty and certification programs.

NEW RENEGADE I-SERIES CCS 2412R WRD SS PASS-THROUGH PARTS WASHER

The new I-Series Pass-Through Parts Washer delivers 3-stage continuous cleaning efficiency to clean and dry complex, multi-ported parts transported via inline conveyor operation. Each wash and rinse stage compartment contains spray manifolds with strategically-placed nozzles to deliver high pressure force and high temperature cleaning. The dry stage compartment contains a powerful air blower to remove residual water from even hard to reach cavities. Conveyor "tunnel" or "flow-through" cleaning systems are designed for high production, repetitive cleaning operations and stages can be configured in any order.

NEW RENEGADE I-SERIES 2633 WRD AUTOMATIC FRONT LOAD PARTS WASHER

The new I-Series 2633 WRD Automatic Front Load Parts Washer with Wash, Rinse and Dry Cycle delivers high performance in an integrated compact system for increased automation. The system can be configured with a wide range of options customized for your production process cleaning.
