Dear Ms. Wilcox:

I have looked over the data from the Renegade parts washer. Based on the information you provided it appears that we would allow the discharge of the wastewater from your parts washer. However, I would like to be contacted on a case-by-case basis to ensure compliance with our program requirements before disposal can be permitted. And there may be certain situations where the use of such a parts washer may be denied.

This should not be construed as endorsement of the product. Other water-detergent based parts washer may also be used in our service area in most situations.

If you or your customers have any questions feel free to call or email me at (218) 740-4815 or tim.tuominen@wlssd.com.

Sincerely,

Tim Tuominen
Pretreatment Coordinator
