

TOP LOAD SERIES

TMB 5500

Automatic Parts Cleaning for Bike Shops and Small-Parts Operations

The TMB 5500 automatic top load parts washer gives bicycle shops and small-parts operations a repeatable alternative to hand cleaning. Load the basket, set the wash cycle and get back to work while high-temperature solution cleans away grease, oil and lubricants.

Its compact footprint fits smaller shops, while a 500-pound load capacity provides serious working capacity. Programmable wash and heater timers help keep the process consistent from batch to batch.

SPECIFICATIONS

CUBIC VOLUME OF WASH ZONE (CUBIC FEET)	2.44
WASH ZONE HEIGHT	16.75"
WASH ZONE WIDTH (INCHES)	14"
DIAMETER	NA
