

Machine Builder

Service Line, Inc. | Reedsburg, WI

Primarily supporting Renegade Parts Washers

Full-Time / In-Person

Schedule: Monday–Friday, 8:00 AM–4:30 PM

About the Role

Service Line, Inc. is looking for a dependable, mechanically minded person to join our production team as a Machine Builder.

Service Line manufactures and supports both Renegade Parts Washers and Hanen Automatic Cattle & Livestock Feeders. This position will primarily support the manufacturing of Renegade Parts Washers.

As a Machine Builder, you will help turn fabricated components, purchased parts, and electrical components into complete industrial parts washing equipment. This is a hands-on position for someone who enjoys building things, solving problems, and seeing a machine come together from start to finish.

Experience in machine building or assembly is helpful, but we are also willing to train someone who has the right mechanical aptitude, work ethic, and willingness to learn.

What You'll Do

- Assemble machines and components according to specifications.
- Install mechanical and electrical components as part of the machine-building process.
- Use hand tools, power tools, and other shop equipment safely and correctly.
- Read and follow technical drawings, blueprints, and assembly information.
- Inspect assembled components and finished equipment for quality and accuracy.
- Test equipment and help make sure machines are operating correctly before they leave our facility.
- Troubleshoot and repair issues that come up during assembly.
- Work with other production team members to keep machines moving through the build process.

- Communicate problems, missing parts, or questions that could affect production.
- Help identify practical ways to improve assembly processes.
- Maintain a clean, organized, and safe work area.
- Assist with other production, shipping, or equipment-related tasks when needed.

What We're Looking For

- Mechanical aptitude and an interest in understanding how equipment works.
- Experience in machine building, equipment assembly, mechanical assembly, or a similar hands-on environment — **or a willingness and ability to learn.**
- Comfortable using hand tools, power tools, and shop equipment.
- Ability to read and interpret technical drawings and blueprints.
- Strong attention to detail and a commitment to quality workmanship.
- Good problem-solving skills.
- Ability to follow instructions and established assembly procedures.
- Ability to communicate clearly and work well with other team members.
- Dependable attendance and a strong work ethic.
- Willingness to learn, ask questions, and build new skills.
- Takes ownership of their work and cares about doing the job right.

Helpful, But Not Required

- Previous machine-building or equipment-assembly experience.
- Experience with electrical assembly or panel building.
- Previous manufacturing or metalworking experience.
- Experience troubleshooting mechanical or electrical equipment.
- Experience with shipping and receiving.
- Technical education or training related to manufacturing, mechanics, electrical systems, or industrial equipment.

We are willing to train the right person who has good mechanical aptitude, a positive attitude, and a willingness to learn how our equipment is built.

What We Offer

- Competitive pay.

- 100% employer-paid health insurance for qualified employees.
- Paid time off and paid holidays.
- Retirement plan options.
- Training and opportunities to build new skills.
- Full-time, Monday–Friday schedule.
- A stable, locally owned manufacturing company.

Why This Role Matters

Our customers depend on Renegade Parts Washers to perform reliably in demanding manufacturing and industrial environments.

The Machine Builder is one of the people responsible for turning individual parts and components into a complete piece of equipment that is ready to go to work for the customer.

Quality assembly matters. A missed component, loose connection, incorrect installation, or overlooked problem can affect how the entire machine performs. That is why attention to detail, problem solving, and pride in workmanship are so important in this position.

This role also gives you the opportunity to see the results of your work. You are not making the same small component all day—you are helping build complete industrial machines.

This is a good fit for someone who enjoys working with their hands, understanding how things work, solving problems, and seeing a project come together from start to finish.

About Service Line, Inc.

Service Line, Inc. is a locally owned manufacturer based in Reedsburg, Wisconsin. Founded in 1996, we design, manufacture, sell, and support products through two primary brands:

Renegade Parts Washers provides industrial parts washing equipment, detergents, and cleaning solutions for manufacturers, repair facilities, maintenance departments, and industrial operations across the country.

Hanen Automatic Cattle & Livestock Feeders provides automated feeding equipment designed to help livestock producers save time, improve feeding consistency, and simplify daily operations.

Our employees are part of the **Service Line, Inc. team** and, depending on their position, may support one or both brands.
